

THE ENVIRONMENTAL MANAGEMENT DEPARTMENT

Our Mission

To provide outstanding service to the RESEARCH, ACADEMIC, OPERATIONAL and HEALTHCARE areas of the University in defining and achieving their goals for environmental compliance and resource conservation.

Our Core Values

EXCELLENCE
We will make it our standard in everything we do.

COLLABORATION
We will always work to understand the needs of the areas we serve and to completely and carefully explain the associated regulatory implications and the nature of our work to be performed in their service.

ACCOUNTABILITY
We will perform our tasks with the full expectation that we are accountable to those we serve and to each other.
